ADMINISTRATION REPORT, 1898-99.

No. 275 of 1899.

From

BHIMBHÁI KIRPARÁM,
Tálukdári Settlement Officer,
Gujarát;

To

The Honourable Mr. F. S. P. LELY, I. C. S.,
Commissioner N. D.

Ahmedabad, 14th September 1899.

Sir,

I have the honour to submit the following Report on the administration of the Tálukdári Settlement Department for the year 1898-99.

2. I held charge of the office throughout the year.

Annual Tour.

3. I commenced my tour in November in the Viramgám Táluka. Encamping at six central places I visited most of the Chuvál villages in November and December and arranged for the proper management of the large estates which have come under Government control under Section 28 of the Tálukdári Act. While travelling in the Chuvál, I took the opportunity of settling the complicated question of the Koli holdings and arranging for the introduction of the *bighoti*, acreage system, in some of the important estates. Details of these measures are given in paragraph 61 below. After finishing this work I returned to head-quarters about the 23rd December last to prepare the special reports and returns on the working of the Tálukdari Acts required by Government, and again left for the district at the end of January.

4. I spent February and March in the tálukas of Dholka, Dhandhuka, and the *peta Mahál* of Gogha, and disposed of some boundary disputes and partition suits after personal enquiries on the spot. I also arranged for the introduction of the *bighoti* system in the large and important estate of Gámph in Dhandhuka. The real cause of the impoverished condition of most of the Gogha Tálukdárs, as I learnt from enquiries during my tour in the Gogha Mahál, is the greed and covetousness of their rich and powerful neighbours in Bhávnagar who have acquired and are still acquiring under the most plausible pretext every convenient plot of ground from these poor and guileless Tálukdárs. Resistance, or even a semblance of it, to these wealthy neighbours is impossible, unless we ourselves interfere firmly and judiciously to save the Tálukdárs from their present unfortunate and difficult situation. I am now seriously considering this matter, and hope to be able to settle it satisfactorily to the Tálukdárs ere long.

5. I visited Sánand and Paráutij in May and remained at head-quarters in April to prepare and submit proposals for the revised jama of the Tálukdári estates of the Panch Mahals. I had also to draw up a memorandum on the *vantás* in Tálukdári villages, which involved a careful reading of the voluminous old records on the subject at head-quarters. I went to Bombay twice in connection with the Gángad and Mátar appeals in the High Court. The Tálukdári estates in the Kaira District having been all visited by me last year while I was there on plague duty, my tour this year was confined mainly to the important tálukas of the Ahmedabad District, where my chief work lay and where I was unable to go last year on account of plague work in Kaira. Maps showing my tour are appended.

The Season.

6. The season of 1898-99 promised well at first, the rains having set in about the 10th June with every promise of a copious and seasonable fall. The

cultivators set to work merrily, and in anticipation of a favourable season and a plentiful outturn commenced their operations on a more extensive scale. The rains, however, proved insufficient in August and ceased almost entirely after a heavy fall during the short interval between the 11th and 18th of September. As a result the late crops suffered seriously. In many parts of the districts of Broach, Kaira, and Ahmedabad the average rainfall was higher than that of the preceding year, but, as it was unevenly distributed, the crops suffered in some places. The Dhandhuka Táluka suffered the most by want of rain for the *rabi* crops; wheat and *bájri*, spiked millet, were six and three annas only in the rupee. The intense cold in the latter part of the winter also proved injurious to the *rabi* crops in Broach and other places. In Kaira the yield of *bájri* and *bavta*, thick-skinned millet, which form the staple food of the poor classes, was good, varying from 14 to 16 annas in the rupee.

7. Most of the Tálukdárs suffered to an appreciable extent from the effects of the low prices which prevailed during the year. The income of the Tálukdárs who receive rent in kind was considerably reduced, and this fact, coupled with the unfavourable monsoon of the current year, accounts for the short recoveries of the Government jama and the instalments due under Act VI of 1862.

8. The subjoined table shows the total number and the revenue of estates of all descriptions under management, and of the Tálukdári villages in Ahmedabad under revenue charge in the year under report :—

	Number.		Aggregate Revenue for collection.	
	1897-98.	1898-99.	1897-98.	1898-99.
			Rs.	Rs.

Tálukdári villages under revenue charge ...	...	...	4,00,478	4,11,917

Encumbered Estates in Ahmedabad.

9. At the end of 1897-98 there were 36 estates under management under Act VI of 1862. No estate has been released during the year under report and the number under management therefore remains the same as in the previous year. There was only one estate remaining under the control of this Department at the end of 1897-98, owing to its indebtedness to Government, though

it was released from management under the Act. Of the 37 estates at present under management as shown in Appendices I and I-A,

16 are managed directly by this office;

20 are managed by the Tálukdárs under the supervision of this office, and

1 is managed by creditors under a special arrangement.

—

37

—

10. The financial position of all the encumbered estates in Ahmedabad is shown in Appendices I and I-A. An abstract of these statements is contained in Appendix IV. This shows that Rs. 2,103 were paid to private creditors and Rs. 9,714 to Government, and that a sum of Rs. 1,68,008 still remains unpaid. Of this amount Rs. 25,400 are due to private creditors and Rs. 1,42,608 to Government. The payments made on account of debt settlement during the two years 1897-98 and 1898-99 are shown in the marginal table. The average payment during the year is 6·8 per cent. of the total sum due at the beginning of the year against 10·6 per cent. in the last year, the percentage of debt reduced being 3·2 against 6·5.

	1897-98.	1898-99.
	Rs.	Rs.
Total debt outstanding at the commencement of the year ...	1,84,626	1,72,576
Added during the year	...	1,021
	1,84,626	1,73,597
Paid during the year—		
Towards reduction of debt ...	12,050	5,589
Do. interest on loans ...	7,629	6,228
	19,679	11,817
Balance ...	1,72,576	1,68,008

11. The small percentage is due to the fact that the Tálukdárs, particularly those in the Dhandhuka Táluka, were unable to pay their instalments owing to the insufficiency of the *rabi* crops and the low prices that prevailed during the year. The season being unfavourable no stringent measures were taken for the recovery of the instalments. The recovery by sale of the full amounts due by the estates of Bagad, Khokernesh, and Jhánjharka (referred to in paragraph 2 of Government Resolution No. 2222, dated 25th March 1899,) has been postponed till a more favourable season.

Encumbered Estates in Kaira.

12. At the end of the last year there were 24 estates under management. During the year 4 were released from the operation of the Act, leaving 20 estates under management at the end of the year under report. Appendix II shows the financial position of each of the 24 estates. An abstract of it is given in Statement IV, from which it will appear that nothing was paid to private creditors and that Rs. 17,149 were paid to Government. Out of Rs. 84,675 which remain unpaid, Rs. 4,863 are due to private creditors and Rs. 79,812 to Government.

13. The payments made on account of debt settlement during 1897-98 and 1898-99 are shown in the marginal table. The average payment for the year under report is 17·6 per cent. of the amount due at the beginning of the year and the percentage of reduction of debt is 13. The corresponding figures for the last year were 16 and 11·3 respectively. All the estates have been making a steady progress towards the payment of Government advances as will be seen from columun 10 of Appendix II.

	1897-98.	1898-99.
	Rs.	Rs.
Total debt outstanding at the commencement of the year ...	1,09,834	97,371
Added during the year	...	...
	1,09,834	97,371
Paid during the year—		
Towards reduction of debt ...	12,463	12,696
Do. interest on loans ...	5,006	4,453
	17,469	17,149
Balance ...	97,371	84,675

Encumbered Estates in Broach.

14. There were two estates under management as in the year before: their financial position is shown in Appendix III. The abstract given in Appendix IV shows that Rs. 737 were paid to private creditors. There were no debts due to Government. The payment made on account of debt settlement during the year is shown in the marginal table. The average payment for the year under report is 5·9 per cent., which is also the percentage of reduction of debt. The figures for the last year were 8·1 and 8·1 respectively. The estate of Jhanor was not able to pay its private creditors for the reason given in paragraph 40 of the last year's report. The Magnád estate has a balance of only Rs. 761 to pay to its creditors, and it will be free next year.

	1897-98.	1898-99.
	Rs.	Rs.
Total debt outstanding at the commencement of the year ...	13,386	12,307
Paid during the year—		
Towards the reduction of debt	1,079	737
Balance ...	12,307	11,570

Minors' Estates.

15. There were 48 minors under my charge at the beginning of the year under report, six were added and 7 released, leaving at the close of the year a net total of 47 minors holding 35 estates. Of the 3 estates released during the year, 2 were unencumbered. Of the 47 minors, 39 are in Ahmedabad, 4 in Kaira, and 4 in Broach. Arranged according to race, 34 are Hindus and 13 Mussalmans. Of the 34 Hindus 20 are Rajputs, 7 Koli Thákardás, 3 Kunbis, and of the Kathis, Chárans, Bráhmans, and Banias one each. The income of the minors varies from Rs. 80 to Rs. 50,000. Eighteen of the estates have an income below Rs. 1,000, 8 below Rs. 5,000, 3 below Rs. 10,000, 3 below Rs. 20,000, and 3 above Rs. 20,000. Fifteen of the estates are unencumbered, while twenty, particularly the smaller ones, are in debt. The more important estates are those noted in the margin. They are all unencumbered except Gángad and Dákor. The unencumbered estates have large savings invested in Government paper and landed property.

Estates.	Balance.	Estates.	Balance.
	Rs.		Rs.
1. Gangad ...	2,377	6. Dholka	3,600
2. Kervada ...	1,30,000	7. Ahmedabad Sayad ...	6,000
3. Jhanor	1,37,000	8. Dákor	14,000
4. Mátar	26,000	9. Nadiád	16,000
5. Rojka	3,600	10. Navda	8,882

16. **Ga'ngad.**—The chequered history of this large and important estate has been given at length in paragraphs 45-56 of the last year's Report and need not be repeated. The litigation in connection with the succession to the estate may be said to have been virtually closed with the High Court's decision in favour of the present incumbent Juvánsingji, though one of the plaintiffs in the suit has lately presented to the High Court an application for review which still awaits final disposal. The scheme for the liquidation of the large debt of the estate is working satisfactorily. As stated in paragraphs 54 and 55 of the last year's Report, the total debt was reduced from Rs. 2,68,175 to Rs. 1,57,000, and the latter sum, together with Rs. 10,000 due to Maganlal Bhaishanker, had to be paid to the creditors of the estate. Of this sum Rs. 1,51,759 have been paid up to date, Rs. 46,000 from the surplus revenue of the estate, and Rs. 1,05,759 borrowed at the rate of 6 per cent. There now remain only Rs. 15,241 to be paid to the creditors. The gross income of the estate was Rs. 48,526 against Rs. 48,778 in 1897-98. Waste lands measuring 500 acres were taken up for cultivation during the year under report and some more land would have been brought under the plough in 1899-1900 had it not been for the unfavourable monsoon of this year. The bighoti system introduced in 1893 will in the end prove beneficial to the Tálukdár and his tenants.

17. **Kerva'da.**—This estate consists chiefly of *wanta* lands in the Broach district. Its management dates from 1896, since which the estate has been thriving. Its opening balance was Rs. 64,363, its income Rs. 40,547, its expenditure Rs. 35,058, and its closing balance Rs. 1,29,857 inclusive of Rs. 1,18,759 invested in landed property. The minor Thákor is a well disposed youth and

if he continue as at present he will turn out very well. He has for the present been withdrawn from the Rájkumár College under the advice of oculists owing to weak eyes. He takes a creditable interest in the management of his estate.

18. **Jhanor.**—This estate, which came under management in 1887, belongs to Jitsingji Bháratsingji, and is very prosperous. Its opening balance was Rs. 14,341, its income Rs. 17,889, its expenditure Rs. 17,718, and its closing balance Rs. 1,37,512, of which Rs. 1,31,000 are invested in landed property. The Thákor has attained majority, and the estate will be soon handed over to him with a large balance of Rs. 1,31,000 invested in landed property under our management. It is to be hoped that he will administer the estate well and carefully and will not nullify the effects of our management by squandering away the large balance which we have accumulated for him after years of careful management.

19. **Ma'tar.**—This estate came under the management of this Department in 1882, and is in a prosperous condition despite the heavy expenses of litigation. After a protracted enquiry, the Assistant Judge F. P. of Broach, Mr. Fawcett, gave decision in November 1898 in favour of the minor, who, however, has been declared by the High Court in appeal to be spurious. Thus after nearly 16 years' recognition as Thákor he has been turned adrift penniless. Leave has been obtained to appeal to Her Majesty's Privy Council, but the unfortunate minor will not, it is feared, be able to avail himself of the permission for want of funds.

20. **Rojka.**—This estate came under management in 1880 with a debt of Rs. 50,000. It has been freed from its heavy liabilities, and is now in a prosperous condition. Its opening balance was Rs. 5,434, its income Rs. 5,016, its expenditure Rs. 6,850, and its closing balance Rs. 3,600, inclusive of Rs. 3,000 invested in Government paper. The minor, Gagubha Dipsingji, has been associated with the management of his estate and is doing well.

21. **Dholka.**—This estate consists of four villages, and the minor is a Kasbáti Tálukdár of Dholka. It came under management in 1892 with a debt of Rs. 6,000, which has been paid off. Its opening balance was Rs. 2,932, its income Rs. 13,182, its expenditure Rs. 12,489, and its closing balance Rs. 3,625. The minor is being educated at Ahmedabad.

22. **The Ahmedabad Sayad.**—The minor comes of a well-known family and is the spiritual preceptor of the Nawáb of Junágadh. His estate consists of four alienated villages in Junágadh, managed by the Darbár, and of the village of Vasodra and some houses in the Ahmedabad District, managed by this Department. Its opening balance was Rs. 3,969, its income Rs. 4,155, its expenditure Rs. 2,080, and its closing balance Rs. 6,044. The minor resides in Ahmedabad, and receives the education suited to his calling.

23. **Da'kor.**—This estate belongs to minor Gopálrao Manohar, by caste a Deshasth Bráhmin. He is the Inámdár of Dákor and Kanjri in Kaira, and the hereditary manager of the celebrated temple of Dákor. The estate came under management in 1894, greatly embarrassed by the improvident conduct of the minor's father. The prolonged litigation between the Inámdár and the *Shevaks*, servants of the temple, has practically been closed by the decision of Her Majesty's Privy Council. The *Shevaks'* accounts are being examined by a specially appointed man under the District Court's order, and a scheme for the future management of the temple is under consideration. After the scheme is passed it will be possible to put right the affairs of the estate and settle all complicated questions which in the present confused and unsettled state of affairs it is impracticable to decide. I have lately conferred with the Collector of Kaira on the maintenance and preservation of the Gomti Tank and such other matters connected with the sanitation of Dákor, and having now learnt his views on these questions I shall settle them as promptly as my other duties will permit. The opening balance of the estate was Rs. 13,162, its income Rs. 27,080 (sansthán Rs. 21,520 and private Rs. 5,560), its expenditure Rs. 25,868, and its closing balance Rs. 14,374.

24. **Nadia'd.**—This is a prosperous estate belonging to minors Kishordás and Kalidás, Kanbi Patidárs of Nadiád. The estate consisting of lands in some twenty villages of the Nadiád, A'nand, and Mátar tálukas of the Kaira District.

came under management in 1890. Its opening balance was Rs. 19,204, its income Rs. 4,991, its expenditure Rs. 8,383, and its closing balance Rs. 15,812, inclusive of Rs. 12,000 invested in Government paper. It has also to its credit Rs. 19,000 invested in landed property. The eldest boy Kishordás has been doing fairly well and has not given much trouble during the year. Suits against the mother of the minors have been filed in the Ahmedabad Subordinate Judge's Court for the recovery of loans made to her without the sanction and knowledge of the Collector. The estate is not liable for debts thus unauthorizedly contracted.

25. **Na'vda.**—This estate consists of lands in several Tálukdári villages of Dhandhuka. It belonged to Mohan Nathu, the son of a wealthy Bania of Návda, and came under management in 1894. The minor who had been associated with the management of the estate was working well, but unfortunately he died in February last ten days after his marriage. Steps have been taken to obtain a certificate of guardianship of the poor widow. The opening balance of the estate was Rs. 10,656, its income Rs. 2,371, its expenditure Rs. 7,145, and its closing balance Rs. 5,882 inclusive of Rs. 4,400 invested in Government paper; it has also to its credit Rs. 3,000 invested in landed property.

26. Appendix V shows that, taking together all the minors' estates under the charge of this office, the total realizations during the year under report amounted to Rs. 1,40,490 against Rs. 1,69,376 in 1897-98. Including the balances in hand at the commencement of the year, the figures are Rs. 2,37,299 and Rs. 2,50,749. The total amount of Government securities up to date is Rs. 21,400. Rs. 2,95,330 have been invested in landed property and there is a cash balance of Rs. 62,511.

27. As stated in paragraph 69 of the last year's report, savings are invested in mortgages on landed properties of Tálukdári estates, and spent in the improvement of the estate, in cases in which such a course is found necessary.

Estates under Sections 320 and 504 of the Civil Procedure Code.

28. At the beginning of the year there were 297 estates under management under Section 320 of the Civil Procedure Code against 331 at the beginning of the last year. Nineteen new estates were added and 34 released from management, giving a total of 282. There were five estates under attachment under Section 504 of the Civil Procedure Code. No estate was released and one came under management, making a total of six at the close of the year.

29. The amount of debts due on the decrees transferred under Sections 320 and 322A of the Civil Procedure Code remaining unpaid at the close of the year was Rs. 5,55,948 as shown in the marginal table, against Rs. 7,96,873 of the last year. This large reduction is chiefly due to the payment of Rs. 38,101 to the creditors as also to the fact that the large decretal debts of the estates of Gángad (Rs. 50,899) and Sadátpura (Rs. 27,500) were paid off by private arrangement with the creditor and that *darkhásts* for Rs. 1,24,525 were returned for want of Government sanction to the sale of Tálukdári estate.

	Rs.
Dholka	30,506
Viramgám	1,82,523
Gogha	4,150
Prántij	3,991
Sánand	1,502
Dhandhuka	3,32,220
Godhra	1,056
Total ...	5,55,948

30. Of the total amount due in Viramgám nearly Rs. 90,000 are due by the estate of Bhankoda. This estate has been placed by the Tálukdárs under Government management under Section 28 of the Tálukdári Act and its condition is described in paragraph 33 below. The other chief embarrassed estates are Chhaniár, Gunjála and Bhagápura with their total debts amounting to nearly Rs. 70,000. Steps are being taken to settle the claims of the creditors of Chhaniár and Gunjála as was done in the case of Sadátpura. The estate of Bhagápura is in a fair way towards the liquidation of its debts. Of the total amount due in the Dhandhuka Táluka, Rs. 2,05,000 are due by the estates of Aniali Bhimji, Advál, Bhadiad, Dhárpipla, Rojka, Fedra, Nágadka, Jalia and Bávaliári. Except Bávaliari, all are in a fairly good condition.

Miscellaneous Estates.

31. At the end of 1897-98 there were 41 estates under management under this head. No estate was released during the year and the 27 estates the

management of which was sanctioned last year were taken over during 1898-99. Government sanction to the management of 24 new estates under Section 28 of Act VI of 1888 was received during the year, leaving the total at 92. Of the total number of estates, 38 are in Ahmedabad, 41 in Kaira and 13 in Broach. Eighty-seven of these are managed under Section 28 of Act VI of 1888, one is managed under Section 26 of the Act, one under Regulation VIII of 1827 and three under a private agreement and Court's orders. The principal estates are described below.

32. **Ga'mph.**—This large and important estate consisting of eight villages came under management in 1896 with heavy debts amounting to Rs. 3,23,800. In pursuance of the scheme for the settlement of the debts sanctioned in Government Resolution No. 8435, dated 19th November 1897 and explained in paragraphs 82-83 of the last year's report, Rs. 2,88,000 have been paid to the creditors, Rs. 58,000 from the surplus revenue of the estate and Rs. 2,30,000 borrowed at 5 per cent., leaving the outstanding debt at Rs. 35,800, which will be paid off in due course. The opening balance of the estate was Rs. 22,293, its income Rs. 60,520, its expenditure Rs. 78,047 including payments to creditors, and its closing balance Rs. 4,766. The noteworthy feature of this year's administration of the estate was the improvement effected in Sángásar, the co-shared village of the Darbár. This village is held in equal shares by the Gámph Darbár and the Mahant of Bhimnáth. As the revenue of the village suffered under joint management, the Gámph Darbár's share has been portioned off and demarcated. Cultivators are being induced to take up waste lands and 45 families of cultivators from Káthiáwár and other districts have recently settled in the village for the purpose of cultivating these lands. These new settlers are helped with the grant of *Tagávi* advances for the purchase of agricultural implements and cattle, and as a further inducement houses have been built for them in the village at the expense of the estate. These arrangements will, it is hoped, bring in an increase of revenue to the estate. The Thákor appreciates the steps taken for the improvement of his estate and he himself takes some interest in the management thereof.

33. **Bhankoda.**—This estate, which was hitherto managed under Section 320 of the Civil Procedure Code, was brought last year under Section 28 of Act VI of 1888. It comprises eleven and a half villages besides an alienated village, half of which is owned by the Pátdi Darbár. For the benefit of the Tálukdárs I am arranging for the sale of their portion of the alienated village (yielding an annual income of nearly Rs. 2,000) to the Fátdi Darbár, who has made an advantageous offer of Rs. 80,000. The arrangement which will afford considerable relief to the Tálukdárs in these hard times will be completed very soon. The estate is indebted to the extent of Rs. 90,000, and there are many disputes regarding partition and right of management which render a speedy improvement difficult. The amount of the debts is nearly settled and the estate will soon be in a fair way towards redeeming its past as its net income in good times amounts to Rs. 10,000.

34. **Sada'tpura.**—This estate is every year described as being hopelessly involved. This year, however, I am glad to be able to report favourably about its prospects. The heavy debts of Rs. 1,68,000, which were out of all proportion to the income of the estate, have been reduced by an arrangement with the creditors to Rs. 50,000 or less than one-third of the original debts, affording a further instance of how estates "hopelessly involved" are rescued from ruin by the intercession of this Department. This settlement also proves the truth of my remarks as to fictitious debts, swollen by the simplicity and ignorance of the Thákordás of Chuvál (*vide* paragraph 74 of last year's report).

35. **Sa'rod.**—This is a large estate in Broach with a debt of nearly Rs. 30,000. Its opening balance was Rs. 5,235, its income Rs. 21,666, its expenditure Rs. 21,825, and its closing balance Rs. 5,076. Now that the Thákor has shaken off the influence of self-seeking advisers, he will find it easy, with his large income, to pay off his debts in a few years.

36. **Chhasia'na.**—This estate is managed under Section 26 of the Tálukdári Act pending a long standing dispute between two rival claimants Umedsing

Sangabhai and Prithising Devising. Undeterred by the expensive litigation carried on in the Agency Courts in connection with their family estate in Káthiáwar the parties have now resorted to the British Civil Courts to have their shares defined.

37. **Cha'ndna**—Shows no improvement. The land has been partly washed away by the action of the river Vátrak and part has become sandy, with the result that the income is insufficient to pay the full jama.

General Administration of Ta'lukda'ri Villages in Ahmedabad.

38. There were 357 Tálukdári villages in Ahmedabad under the revenue charge of this office. Their jama including Local Fund Cess (Rs. 35,107) amounted to Rs. 4,01,454. The arrears for previous years were Rs. 10,463, making a total of Rs. 4,11,917 for collection during the year. Of this sum, Rs. 3,93,341 were collected and Rs. 7,017 remitted under your sanction; Rs. 11,559 remained outstanding at the close of the year. The unrecovered amount belongs to three tálukás, *viz.* Dhandhuka, Rs. 7,587; Dholka, Rs. 3,078; Viramgám, Rs. 894; total Rs. 11,559. The arrears in Dhandhuka are on account of the village of Návda, the circumstances of which are too well known to Government to need repetition. Last year a sum of Rs. 5,327 was written off, and about Rs. 5,000 will have to be written off this year in the usual course when the accounts are made up. The outstandings in Dholka amounting to Rs. 3,078 consist of the *jamas* or Government demand due by the estates of Ganol, Chandisar Vánto, Vautha Vánto and Baroda. The income of these villages has fallen below the revised jama and I have had to report about it in my No. 162 dated 23rd May 1899. Of the outstandings in Viramgám, amounting to Rs. 894, Rs. 739 are on account of the village of Sunvála owned by the Katosan Darbár. Steps have been taken to recover the amount. The remaining amount, Rs. 155, due by the Tálukdárs of Ratanpur and Tanmania, will have to be written off as the income of the villages fell short of the jama.

39. As regards the village of Aniali Kathi, Government have been pleased to direct the levy of the full assessment owing to the village having passed into the hands of a non-Tálukdár of the district. The long-pending dispute between the Káthis and the owner has not yet terminated.

40. The collection and expenditure of Local Funds in the Tálukdári villages of the Ahmedabad and Kaira Districts are shown in Appendix VII and contrasted in the marginal table with the figures of the preceding two years. The amount allotted to Tálukdári villages out of the Local Funds paid by the Tálukdárs is disproportionately small, making it impossible to adequately supply the wants of these villages. In most of the villages that I visited in the Chuvál last season there appeared a great want of water-supply almost everywhere, and I would therefore again beg to invite attention to the remarks made in paragraph 81 of my report for 1896-97, as also to paragraph 92 of last year's report regarding the necessity of improving the water-supply in Tálukdári villages. There is all the greater necessity for this now that there is a continued drought and a diminution of water-supply in tanks and wells.

District.	Amount collected from the villages in			Amount expended in the villages in		
	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.
Ahmedabad .	31,827	34,567	35,107	16,631	18,422	9,169
			Percentage	52·2	53·3	26·1
Kaira ...	6,103	6,065	6,206	1,129	4,704	1,178
			Percentage	18·5	77·5	18·9

41. I examined a large number of boundary marks and found that the work was on the whole satisfactorily done. I also visited the Mámlatdar's *kacheris* of Parántij, Sánand, Viramgám, Dholka, Dhandhuka and Gogha in the Ahmedabád District, and of A'nand, Nadiád, Mátar and Mehmedabad in the Kaira District. The work was on the whole carefully done. The B papers of the tálukás of Dhandhuka, Mátar, Nadiád and Mehmedabad were examined by me and instructions were given to arrange them according to orders for destruction on my next visits to the táluka.

42. Proposals for the revised jama settlement of the Dhandhuka and Sánand Tálukás have in the main been accepted by Government. The increase over the existing jama was 18·76 per cent. in the case of Dhandhuka and 22·9 per cent. in the case of Sánand. The settlement sanctioned in Government Resolutions Nos. 563 and 564, dated 24th January 1899, was announced to the Tálukdárs of Dhandhuka and Sánand by the Collector of Ahmedabad and myself soon after the sanction was received. The revision jama settlement of the Tálukdári estates in the Ahmedabad District has thus been completed. Proposals for the levy of local funds from the Tálukdári estates of Dhandhuka and Sánand are under the consideration of Government. The report submitted by me in May last on the jama settlement of the Tálukdári estates of the Panch Maháls has also been disposed of, and the orders passed thereon in Government Resolution No. 5242, dated 28th July last, will be announced to the Tálukdárs concerned next fair season.

43. The preparation of the survey registers under Section 5 of the Tálukdári Act has been begun. The work is by no means an easy one; the determination of the interests of the several sharers in the estates and the liability of the sharers to pay Government jama, Local Funds, Police charges, &c., will entail no inconsiderable trouble. The enquiry into alienations and incumbrances will also require care and attention. The introduction of a detailed survey of tenants' holdings, referred to in paragraph 9 of Government Resolution No. 2222, dated 25th March 1899, has formed the subject of a special inquiry.

44. In regard to the suits filed by the Kasbátis of Viramgám to establish their proprietary right to the villages ordered to be resumed by Government in their Resolution No. 3043, dated 14th June 1898, the High Court has issued *ad interim* injunctions restraining Government from taking over possession of the villages. Adjournment has been obtained. and the orders of Government on the special report submitted by the Collector are awaited.

Education and the Jubilee Institute.

45. The education of Tálukdár boys is conducted on the principles described in paragraphs 98—100 of the last year's report. A scheme for the enlistment of young Thákors in the Police force is being prepared. At present eight boys attend the local schools at Ahmedabad residing as boarders in the Jubilee Institute; others receive education in the village schools. Weak eyes have compelled the Thákor of Kervádа to give up his studies at the Rájkumár College, and Chandrasingji of Mátar has had to leave the Wadhwán Grassia school owing to the adverse decision passed by the High Court. The Jubilee Memorial Institute has continued to prove useful to the boys receiving education in the city. It also serves as a lodging place for Tálukdárs visiting the city on business. The Institute and its fund are managed by a Committee of Tálukdárs with the Tálukdári Settlement Officer as President. The fund at present amounts to Rs. 24,400, of which Rs. 23,000 are invested in landed property and Rs. 1,400 are in ready cash. The expenditure of the Institute amounted to Rs. 1,100 during the year under report.

Execution of Decrees.

46. At the close of 1897-98 there were 776 decrees for execution under Sections 320 and 322 of the Civil Procedure Code. Of these, 600 were received from the Courts and 176 under Section 322A. The number of decrees received during the year was 48 against 93, 100, and 106 respectively in the preceding three years. Two were received direct. The total number of decrees for execution during the year was 826, while last year there were 837. These 826 decrees were dealt with as shown in the margin.

Kept over for the departmental management of the estates	579
Under enquiry	71
Returned to the Courts ...	176
	826

47. Those returned to the Courts were disposed of as under:—

7 by compromise.
41 by paying the decretal amount from the judgment-debtors' property under management.
5 returned to the Courts, Government having withheld sanction to the sale.
94 returned for failure of the plaintiffs to obtain Government sanction to the sale.
2 returned under Section 325.
25 returned for the correction of darkhást.
2 returned on the death of the defendants.

176

48. The table given in the margin shows the manner in which the decrees received in each year and those brought over from the previous years were disposed of during the last three years. The payments to creditors during the year was 7·1 per cent. against 5·0 and 5·9 in 1896-97 and 1897-98 respectively. Barring the 176 decrees returned to the Courts, the total number of decrees (under Section 322A, Civil Procedure Code) and *darkhásts* under execution at the end of the year was 650, representing an aggregate amount of Rs. 7,65,664. The table given in the margin shows how many of these were *sán darkhásts*, *i.e.* relating to mortgaged and personal property. The amount under "Personal" is considerably larger than that under "Sán." The personal debts will cease, however, on the death of the judgment-debtors and no special measures for their liquidation are therefore necessary.

	1896-97.		1897-98.		1898-99.

Godhra	10	1,425	1,056
Total ..	650	7.65,664	5,55,948

49. The table given in the margin shows how many of the total decrees and *darkhásts* related to the debts incurred *before* the operation of Act VI of 1888 and how many to those contracted *after* its operation. The comparison affords a striking proof of the value of the debt restraining provisions of the Tálukdári Act.

50. The table given in the margin shows according to tálukas the total number of decrees and *darkhásts*, personal or otherwise, and the amount of claims still remaining unsatisfied.

51. The amount realized by the management of the estates under attachment in execution of decrees and remitted to the Civil Courts was Rs. 38,400

against Rs. 36,595. No estate was sold in execution of decrees against specific property.

Suits.

52. The total number of suits on hand was fourteen, four of which were filed during the year under report. Of these, six were disposed of, three in favour of this Department and three against it. The Mátar succession suit was decided in the High Court against the minor Chandrasingji, and leave has been obtained to appeal to Her Majesty's Privy Council. The Gángad succession case which had practically terminated has assumed unexpectedly a new phase, and one cannot say at this stage what the subsequent developments may be. Important and intricate suits like these require careful handling and thoughtful attention. Appendix VI gives all the details of the several cases.

Financial Review.

53. The following abstract gives at one view the financial result of the management of the estates during the year under report :—

	Number of Estates.	Gross Income including previous year's outstanding balances.	Total Revenue realized including past year's balance in hand.	Charges of all kinds.						Paid to creditors.	Balance in hand at the close of the year.	Outstanding balances written off.	Outstanding balances at the close of the year.		
				Government dues.	Collection, &c., charges in the Taluka.	Talukdari Settlement Officer and Establishment charges.	Maintenance, education and other expenses including investments.	Miscellaneous.	Total.				Previous years.	Current year.	Total.

The details of this abstract will be found in Appendix V.

54. The percentages of collection, remission and outstanding balances to the total realizable revenue of the estates under management for the year under report and the previous two years are shown in the following table :—

District.	Years.	Gross Revenue including arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of collection.	Percentage of remission.	Percentage of outstanding balances.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad ...	1896-97 ...	4,25,338	3,55,930	4,768	64,640	83·6	1·1	15·1
	1897-98 ...	4,20,828	3,35,478	22,903	62,447	79·7	5·4	14·8
	1898-99 ...	4,17,772	3,47,364	14,373	56,035	83·1	3·4	13·4

	1897-98 ...	1,38,302	1,22,155	3,082	13,065	88·3	2·2	9·4
	1898-99 ...	1,80,148	1,45,868	3,107	31,173	80·9	1·7	17·3
Broach... ...	1896-97 ...	1,69,829	1,41,556	1,411	26,862	83·3	0·8	15·8
	1897-98 ...	2,08,931	1,66,970	3,893	38,068	79·9	1·9	18·2
	1898-99 ...	2,08,814	1,37,365	3,060	68,389	65·7	1·4	32·7
Total	1896-97 ...	7,28,630	6,19,276	7,782	1,01,572	84·9	1·06	13·9
	1897-98 ...	7,68,061	6,24,603	23,878	1,13,580	81·3	3·9	14·8
	1898-99 ...	8,06,734	6,30,597	20,540	1,55,597	78·1	2·5	19·2

55. The above figures show that the gross revenue rose from Rs. 7,28,630 in 1896-97 to Rs. 8,06,734 in the year under report, showing an increase of 10·7 per cent. The percentage of collection was lower than that of the two preceding years owing to unfavourable seasons.

56. The amounts of remissions and outstanding balances at the close of the year were Rs. 20,540 and Rs. 1,55,597, respectively. Arranged under the different heads, the remissions and the outstanding balances show the following results. Figures of the current and past year's balances have been shown separately :—

Districts.	Encumbered Estates.	Guardians and Wards Act.	Section 28 of Act VI of 1888.	Section 144 of Land Revenue Code.	Section 320 of Civil Procedure Code.	Section 594 of Civil Procedure Code.	Total.

	14,216	51,198	66,827	7,384	10,172	5,800	1,55,597

The principal items of remissions and outstandings are given below :—

Remissions.

57. Irrecoverable outstandings were written off after due enquiry. The principal items were Rs. 2,354 in Sárod, Rs. 1,060 in Gámph, Rs. 2,983 in Vithalápur and Rs. 2,914 in Gángad. The Gámph, Sárod and Gángad items were written off owing to the impoverished condition of the cultivators. The amount due in Vithalápur was disputed and written off after enquiry. Other small items belonged to Bhankoda, Oran, Piparia, Padusan, Rudatal, &c., and were allowed for maintenance, remitted to poor cultivators or written off as disputed after enquiry.

Outstandings.

58. The absence of the latter rains and the fall in the prices of cotton and wheat had a serious effect on the payment of rents.

Encumbered Estates.

Rs. 3,251 of previous years in Makhiáv in Ahmedabad, due partly by the Tálukdárs and partly by the cultivators, and Rs. 1,363 in Magnád in Broach, due chiefly by the Tálukdárs, will have to be written off after the enquiry is completed. Rs. 1,091 due by the tenants of the Kuna estate in Kaira will have to be written off on account of the cultivators' poverty.

Guardian and Wards Act.

Rs. 2,540 in Moyadvas Rupaji in Ahmedabad, being disputed have formed the subject of a special enquiry. Rs. 1,329 due by the tenants of the Nadiád Desai's estate are recoverable, while Rs. 11,361, mostly of previous years, due to the Dákor estate since the time of the minor's father will have in a great part to be written off. The recovery of the large sums of Rs. 10,480 in Mátar, and Rs. 12,357 in Kervada in Broach,

due by the tenants, has been suspended owing to bad season. Of Rs. 5,462 in Jhanor in Broach, Rs. 4,462 represent the interest on the loan advanced to the Mahant of Bhimnath, which he has not been able to pay owing to bad season.

The chief items under this head are Rs. 6,846 in Gámph in Ahmedabad; Rs. 17,665 in Sárod in Broach, representing chiefly the outstandings brought on account when the estate came under the management of this Department; and Rs. 5,785 in Janiadra in Broach. The recovery of these has been suspended till favourable season.

Section 28 of Act VI of 1888.

Section 144 of Land Revenue Code.

The chief item is Rs. 5,131 in Gángad, and is mostly irrecoverable.

Section 320 of Civil Procedure Code.

Rs. 3,315 in Aniali Bhimji in Ahmedabad, due on account of a poor yield of crops, will have mostly to be written off.

Section 504 of Civil Procedure Code.

Rs. 3,399 due in Rozad in Ahmedabad are disputed and will have to be written off after enquiry.

59. The table given in the margin shows the average percentage of expenses of management to realizable revenue and to actual collection of each district separately and of all the three districts together for the year under report. The percentage is higher than that of last year in consequence of short collections due to unfavourable season. Other reasons for the increase in percentage are (1) the inclusion in this year's amount of the *actual* expenses for the month of July instead of merely the estimate as was the case in previous years, and (2) the creation of new appointments for the management of the estates of Chuvál and Sárod.

District.		Talukdári Settlement Office.	Local expenses of Taluka, &c.	Total average percentage.
Ahmedabad	On realizable revenue	1·5	5·9	7·5

Working of the Gujarát Talukdárs Act, 1888.

60. I have very little to add to the remarks made in my reports for the previous years regarding the working of the Tálukdári Act. During the year Government called for a special report on the working of the measures for the relief of the Gujarát Tálukdárs from the time of the passing of Act VI of 1862 onwards. I submitted the required information in my report No. 365, dated 20th December 1898. The report specially dealt with the present condition of the estates that were freed from debt in the past, and showed how the restrictions on alienations imposed by Act VI of 1888 have worked since their inception. I also submitted proposals for the further amelioration of the condition of the Tálukdárs. These chiefly referred to imposing restrictions on Tálukdárs' power to create incumbrances during their lifetime and to protecting them from the harassments of the ordinary procedure of Civil Courts where they are practically at the mercy of unscrupulous money-lenders and clever Vakils. I venture to hope that early steps will be taken to give practical shape to these proposals should they meet with the approval of Government.

61. The noteworthy feature of the year's administration is that during my tour in the Chuvál villages, I was able to complete the arrangements for the efficient management of the large estates which have come under control under Section 28 of the Tálukdári Act. It is satisfactory to note that after a lapse of more than 30 years, it was possible to put into operation the scheme proposed by Sir James Peile and Sir James Richey, and sanctioned by Government in 1867. A Deputy Manager has been appointed, who holds his office at Bhankoda, keeps the accounts and generally manages the estates on behalf of the proprietors under the orders of this office. The Thákárdas thus find it easy to seek the help and advice of this Department in the conduct of their affairs. I was also able to settle the complicated question of the Koli holdings which seriously affect the financial condition of the Tálukdárs, who are required to pay the increased *jama* in full on lands held by Kolis and others at a nominal quit-rent. The Kolis and Brah-

mans of the Kánj village of the Bhankoda Estate, relying on the decrees obtained from Civil Courts and their prescriptive right, stoutly opposed the right of the Tálukdárs to increase the rental. But wiser counsels prevailed, and they have agreed to pay Rs. 1,100 per annum in lieu of Rs. 200 hitherto paid to the Tálukdárs. Such tenacious litigants as those of Kánj having been prevailed upon to give in and acquiesce in the arrangement proposed by me, it is presumed that no difficulty will be experienced in settling other similar questions elsewhere.

62. In connection with the working of Section 31 of the Tálukdári Act during the year under report, I may observe that there were at the close of the past year 24 applications covering Rs. 1,61,061 for permission to borrow money on the security of the estates and 29 new applications covering Rs. 63,633 were received, making a total of fifty-three applications covering Rs. 2,24,694. In 21 cases sanction was given to the borrowing of Rs. 99,825. Thirteen applications for Rs. 30,540 were rejected and 19 for Rs. 94,329 remained under enquiry at the close of the year. In cases in which sanction was given to the borrowing of money on the security of estates, searching enquiries were made to check reckless borrowing and revival of dormant claims.

63. In paragraph 77 of the last year's Report I had dwelt at some length upon the advantages of the *Puláchhuth* system as affording an effectual means of rescuing embarrassed estates. I still adhere to the opinion then expressed, that this kind of temporary alienation is on the whole favourable to the debtor, though its application to some cases presents at times certain difficulties. The creditor has first of all to be counted with, and often times he proves a tough man to deal with. The expedient of handing over an estate to a creditor, even temporarily, should be resorted to only when all other remedies fail. Lately, however, capitalists have been manifesting a desire to accommodate the Tálukdárs on easy terms. As the Tálukdárs who apply for sanction to borrow large sums of money on the security of their estates have to hand over the management of the mortgaged property to this Department under Section 28 of the Tálukdári Act, the creditors consider their investments safe and evince their readiness to lend money at 6 and 7 per cent., which is half the rate they formerly charged. Under the present favourable circumstances for money-borrowing it is manifestly more profitable to pay off old debts by fresh loans on easier terms than to put the creditor in possession of property for a specified term.

64. Section 28 of the Act, which enables Tálukdárs to place their estates under our management of their own accord, is a very useful provision. During the year the management of 24 estates was transferred to this Department under Government sanction. The total number of estates managed under this section is 87. The figures in the marginal table show that the Tálukdárs have begun to appreciate the benefits of Government management. The settlement of the Sadátpura debts, referred to in paragraph 34 above, shows how an estate can be saved from total ruin by the application of Section 28 of the Act.

Year.	Number of Estates.	Year.	Number of Estates.
1889-90 ...	1	1897-98 ..	31
1890-91 ...	1	1898-99 ...	24
1891-92 ...	1		
1892-93 ...	4	Total ...	96
1893-94 ...	10		
1894-95 ...	4	Removed ...	9
1895-96 ..	9		
1896-97 ...	11	Net Total ...	87

65. There were twelve partition cases pending at the beginning of the year and six new applications were received, making a total of eighteen. Of these five were disposed of, and seven await disposal, pending the preparation and verification of statements showing the number and area of the fields in the possession and enjoyment of the several claimants. In the remaining six cases, which were filed in March and April, the usual notices have been issued and they will be taken in hand on my next visit to the Táluka. This mode of settling partition cases has given general satisfaction, as it saves considerable expense and trouble.

Miscellaneous.

66. Three boundary disputes were pending at the beginning of the year. The Mánipur and Palodiya dispute has reached its final stage after five hearings

and a decision will soon be delivered. The Moti Boru and Cambay dispute was settled on the spot in the presence of the Diván of Cambay and the Tálukdárs of Moti Boru. The line fixed by Mr. Beyts in 1864 was traced and the parties concerned have been asked to put the necessary pillars. Encamping at Navágám I inspected the disputed land in the Pipli and Cambay case in the presence of the Diván of Cambay and the Tálukdárs of Pipli, and heard what the parties had to say on the subject. The Cambay State claims a large area of land on the west side of the Sábarmati extending over an area of more than six miles. After inspection of the land it was found necessary to compile statements and maps showing the changes that have taken place in the course of the Sábarmati since Captain Cruikshank's survey in 1823. The case will again be taken up as soon as the required information is ready.

Resumé.

67. The following is a resumé of the operations of this Department during the year under report, and the previous two years, in all the districts under the several heads mentioned :—

	1896-97.	1897-98.	1898-99.
Estates under management	537	458	494
Their total revenue	7,28,630	7,68,061	8,06,734
Amount collected	6,19,276	6,24,603	6,39,597
Decrees received from the Civil Courts for execution	100	93	48
Decrees, including those brought over from previous years executed by compromise, sale, mortgage, &c.	825	758	755
Amount paid to private creditors	83,702	99,152	1,27,958
Amount paid to Government	25,761	32,829	26,864
Amount paid to Tálukdárs for maintenance including the heavy cost of the Mátar litigation and surplus balance paid under Section 28 of the Tálukdári Act	1,65,789	1,41,721	2,22,754
Paid for Government jama	2,07,863	1,93,887	2,12,706
Paid for expenses of collection, supervision, &c. ...	58,271	53,911	60,238
Minors' money invested—			
In Government security	.....	.....	.....
In landed property	12,721	70,000	78,759
Estates under enquiry for partition	13	14	18
Original suits and appeals	28	16	14
Revenue of Tálukdári villages in Ahmedábád District under the revenue charge of this office collected	3,94,986	3,92,107	3,93,341
Percentage of—			
Collection	84·9	81·3	78·1
Remission	1·06	3·9	2·5
Outstanding balances to realizable revenue ...	13·9	14·8	19·2
Percentage of collection and management charges to—			
Total realizable revenue	8·0	7·0	7·4
Total collection	9·4	8·6	9·5

The reasons for the lower percentage of collection and the increase in the cost of collection and supervision have been explained in paragraphs 55 and 59 above.

68. In conclusion, I beg to express my sense of obligation to the District Collectors for their support and ready help. The establishment have worked well as usual.

I have the honour to be,
Sir,
Your most obedient servant,
BHIMBHA'I KIRPARA'M,
Tálukdári Settlement Officer.

BHIMBHA'I KIRPARAM,
Tálukdári Settlement Officer.

Remarks of the Commissioner, Northern Division, on the Administration Report of the Tálukdári Settlement Officer for 1898-99.

No. 852 OF 1900.

REVENUE DEPARTMENT.

Camp A'nand, 26th January 1900.

Submitted to Government.

Mr. Bhimbhái held charge of the Tálukdári Settlement Office throughout the year.

2. His tour was almost entirely mainly confined to the Ahmedabad District, which demanded greater attention. The bighoti system was introduced during the year in some of the important estates of the Chuval in the Viramgám Táluka and in Gamph, and it is hoped that the long-standing family disputes of the Thakardas have been set at rest. These estates are now managed under Section 28 of the Tálukdári Act. The season was only moderate, the rainfall being unevenly distributed, while low prices prevailed everywhere.

3. The average payment towards the liquidation of debts under Act VI of 1862 in Ahmedabad has fallen from 10·6 per cent. to 6·8. These small figures are due to the unfavourable nature of the season, and are mainly due to the small returns from the Dhandhuka Táluka, where a number of estates paid little or nothing during the year, and three are fit to be sold. A glance at Appendix I will show that out of a total of 36 estates under management, 2 estates paid over 50 per cent., 3 between 20 and 50 per cent., and 5 more than 10 per cent.

4. The Kaira estates have, on the other hand, made very good progress and have on an average paid off 17·6 per cent. of their debts. In addition 4 estates have been liquidated, leaving 20 under management.

5. Of the two estates in Broach, reduction of debt was made only for the Magnad estate, which is prospering, and will shortly be free from debt.

6. The management of minors' estates has been attended with success throughout the year. The estates of Gangad and Dakor appear to be emerging from their troubles. The affairs of the Matar estate, however, still await the result of the prolonged litigation, which has now reached the Privy Council. The estate of the Thakor of Jhanor is being handed over to him with a balance of Rs. 1,31,000. All the other estates are to a greater or less degree thriving. The number of minors has decreased by one, leaving 47 minors and 35 estates.

7. The number of estates under Section 320 of the Civil Procedure Code has fallen from 297 to 282, and that of attached estates has increased by one, making a total of 6. The large reduction of Rs. 2,40,925 in the amount of decretal debts to be paid is commendable. A sum of Rs. 38,101 was paid off to creditors, and debts of the Gangad estate amounting to Rs. 50,899 and of Sadatpura to the extent of Rs. 27,500, were discharged by private settlement. The remaining decrease is due to darkhásts being returned for want of Government sanction to the sale of Government estates. Nearly all the estates are in a fairly promising situation except Baoliari in Dhandhuka, which has long been almost beyond hope.

8. The number of miscellaneous estates has risen from 41 to 92; 87 of these are managed under Section 28 of Act VI of 1888. It is most satisfactory to note that the affairs of the estate of Sadatpura, which have so long been regarded as hopeless, have now been put in a fair way of settlement, entirely through the efforts of the Department. The Tálukdári Settlement Officer's arrangements as regards Gamph and Bankhoda have been most judicious.

9. The arrears due to Government on account of the jama of the villages under the revenue charge of the Tálukdári Settlement Officer aggregate Rs. 11,559, which are chiefly due from Navda in Dhandhuka (Rs. 7,587) and some of the villages in Dholka, whose incomes have fallen below their revised jama. The facts have been already reported to Government, and there is nothing more to add.

10. The state of the boundary marks and the work in the Mámlatdárs' kacheris in connection with this Department are reported to be satisfactory.

11. The revision settlement work of the Ahmedabad District has now been finished and orders regarding the Panch Mahals will be shortly announced. It is hoped that the preparation of the Survey Registers under Section 5 of the Act will not be long delayed.

12. The education and training of the sons of the Tálukdárs continues to receive careful attention. The Jubilee Institute in Ahmedabad is said to be a comfortable home for the boys and the Tálukdárs coming occasionally to the city. The Institute has a fund of Rs. 24,400. Mr. Bhimbhái's scheme for the enlistment of some of these boys into the Police is not yet ready.

13. The number of decrees received for execution is steadily decreasing, only 48 being received against 93 in the previous year. The payments to creditors also show a decided improvement, being 7·1 per cent. against 5·9. The comparative table in paragraph 49 of the report clearly testifies to the immense benefit accruing to the Tálukdárs under the operation of the Act.

14. The short collection of the year, due to the unfavourable season, has caused the amount of outstandings to be increased, as well as the percentage of cost of management. Much of the outstandings are irrecoverable.

15. The Tálukdári Settlement Officer has made satisfactory arrangements for the management of the Thakarda estates in the Chuval and for the increased quit-rent paid to them by their tenants. The question of introducing a detailed survey of tenants' holdings suggested by Government in paragraph 9 of Government Resolution No. 2222, dated 25th March last, is being inquired into, and its adoption will further simplify the relations between the Tálukdár and tenant.

16. Cases coming up for the partition of estates appear to have been disposed of to the satisfaction of the parties concerned. There were 18 cases against 14 last year.

17. The boundary disputes of the past year approach early settlement, with the exception of that between Pipli and Cambay, which is under consideration.

18. The continued success of Mr. Bhimbhái's administration is to be ascribed to the zeal and conscientious care applied by him to all the numerous details of his duty.

F. S. P. LELY,
Commissioner, N. D.

Annual Administration Report of the Tálukdári Settlement Officer for the year 1898-99.

No. 2417.

REVENUE DEPARTMENT.

Bombay Castle, 14th April 1900.

Memorandum from the Commissioner, N. D., No. 852, dated 26th January 1900—Forwarding with his remarks a letter No. 275, dated 14th September 1899, from the Tálukdári Settlement Officer, who submits his report on the administration of the Tálukdári Settlement Department for the year 1898-99.

RESOLUTION.—The Annual Report of the Tálukdári Settlement Officer for the year 1898-99 has been carefully reviewed by the Commissioner, N. D., whose remarks meet with the general concurrence of Government. The report bears ample evidence of the benefits conferred on the Tálukdárs not only by the working of the Acts but also by the personal advice and help of the Tálukdári Settlement Officer.

2. The number of estates managed by the Tálukdári Settlement Officer under the Encumbered Estates Acts during the year under report was 59 as compared with 65 in 1897-98. The total income of these estates during 1898-99, including the previous year's balance in hand, was Rs. 1,07,991 against Rs. 1,15,048 in the preceding year, and the amount utilized towards the settlement of debt was about 27 per cent. of the income against 33 per cent. in 1897-98. The falling off in the year of report is fully accounted for by the unfavourableness of the season; indeed the progress made in the Kaira Estates was very rapid, and if continued at the same rate, will result in the relief from debt in a very few years of all the estates of that district.

The total income of all other estates under the management of the Tálukdári Settlement Officer, including past years' balances in hand, fell in the year of report to Rs. 9,66,441 from Rs. 10,03,495 of the preceding year. It is decidedly satisfactory that the amount paid to creditors rose to 13 per cent. of the income as against the corresponding proportion (9 per cent.) in 1897-98.

3. The gross demand for all the estates under the Tálukdári Settlement Officer in 1898-99 amounted to Rs. 8,06,734 as compared with Rs. 7,68,061 in 1897-98. The demand, thus, showed a substantial increase of nearly Rs. 38,000 as compared with the previous year—but the collections did not increase in proportions—and outstandings now constitute no less than 19 per cent. of the gross demand. It is to be feared that during the current year they will owing to the famine be larger still. But it is *primâ facie* inadvisable that the percentage of outstandings should increase from year to year. Previous years' outstandings which are considerable should be promptly written off when ascertained to be irrecoverable.

4. The table given in paragraph 49 of the report, showing the number of decrees and darkhásts received during the year, illustrates in a striking manner the beneficent influence exercised by the Act in restraining reckless borrowing. But the present report shows once more how very much depends on the personal initiation of the Tálukdári Settlement Officer. Mr. Bhimbhái has shown marked ingenuity and judgment in settling the affairs of several estates the affairs of which had been reduced to lamentable confusion and embarrassment. His success in obtaining loans at 6 and even 5 per cent. wherewith to meet debts running at usurious interest stands out in contrast to the difficulties experienced by the Manager of Encumbered Estates in Sind in obtaining money in the open market for similar purposes.

Government of Maharashtra

on 01 February, 2020

5. The jama settlement of the Ahmedabad estates is concluded; that of the Panch Mahâls estates has still to be taken up. The Tálukdári Settlement Officer has also undertaken the important duty of completing the alienation registers. The progress of this work will no doubt be noticed in the next report. Mr. Bhimbhái's reports on the questions of the introduction of the detailed survey of tenants' holdings in Tálukdári Estates and the enrolment of young Tálukdárs in the Police are awaited.

6. His Excellency the Governor in Council concurs cordially in the commendations bestowed by the Honourable Mr. Lely on Mr. Bhimbhái for the efficient administration of his Department.

H. S. LAWRENCE,
Under Secretary to Government.
